

Message from the Founder/President...

Welcome! I would like to share with you my vision for a brighter future and what we can do *together* to achieve that vision...

In my role as President, I plan to dedicate my time and efforts to fulfilling the mission set forth for the betterment of our youth.

I think we give up and give in too often instead of finding the root of the problems or praising the positive efforts displayed by our children. *The road not taken or less traveled* is the road that we have to take to secure a positive future for our youth. With labeling our children with negative terms we tend to forget that there is a source for which this negativity stems and if we can locate that source, we can most certainly make an effort to correct it and build a positive environment as well as thought processes for that child and their future.

We as a community should praise our children for their achievements and positive efforts, because majority of the time it goes unnoticed. As "the helping hand" we should realize that our youth are the only future that we have. So I ask you to support this and other organizations that have a mission to strengthen our children. With your time and effort, "We" will make a difference in the lives of our youth and communities, in turn that will begin to grow and affect all children in our cities, states, nation, etc.

Again, I thank you for your time and willingness to take *the road less traveled*.

Sincerely,

Janila R. Jute
